Subject: FW: Thoughts on Washington's water quality assessment and listing process

This may be the letter that Ken Johnson gave me a heads up about. I don't want folks to get off of what their priorities are for this next week. I will take the lead on reviewing and setting up any follow-up meetings that may need to happen. Not sure what she is asking for but want to stay focused on our other stuff first.

Susan

Subject: Thoughts on Washington's water quality assessment and listing process

Hi Susan,
Thanks for taking the time to talk and email with me about this issue. Please find attached a letter where I raise some concerns about the current process in light of new HH WQC and more sensitive analytical methods and propose for consideration some changes to make the 303(d) listing process more focused. Please let me know if you'd like to discuss this further. Best, Nancy

Nancy Judd

which may be a computer program. This attached computer program could contain a computer virus which could cause harm to EPA's computers, network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses introduced into the EPA network. EPA is deleting all computer program attachments sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate, you should contact the sender and request that they rename the file name extension and resend the Email with the renamed attachment. After receiving the revised Email, containing the renamed attachment, you can rename the file extension to its correct name.

For further information, please contact the EPA Call Center at (866) 411-4EPA (4372). The TDD number is (866) 489-4900.
